EDUCATION

Southern Alberta Institute of Technology — Calgary, AB

Diploma of Information Technology Services — Graduated: April 2025

TECHNICAL SKILLS

- **Infrastructure as Code:** Terraform (vSphere, Azure), Ansible
- **DevSecOps & CI/CD:** Git, GitHub Actions, Docker, Docker Hub
- **Cloud & Virtualization:** Microsoft Azure (VM provisioning, RBAC, Logic Apps, Blob Storage), Proxmox VE, VMware ESXi (templates, clustering, datastore)
- **Networking and Security:** Palo Alto NGFW, VPN/RRAS, Syslog, Cisco PT, ACLs, VLANs, DHCP, NAT
- **Systems & Tools:** Windows Server & Active Directory, Linux (Ubuntu, Fedora, Red Hat, CentOS), Microsoft 365, PowerShell, PowerApps)
- **Soft Skills:** Problem Solving, Detail Oriented, Collaboration, Technical Support

PROJECT EXPERIENCE

Multiple Projects

SAIT – Calgary, AB | Sep 2023 – Apr 2025

FIREWALL & SECURITY

- Designed Palo Alto firewall zones (Internal, External, DMZ) enhancing network segmentation
- Configured Syslog monitoring and reconnaissance protection, improving incident visibility
- Applied geo-blocking and file-restriction policies; researched cloud disaster-recovery strategies

AUTOMATION & DEPLOYMENT

- Automated vSphere provisioning (VM creation, HA clusters) with Terraform, reducing manual setup
- Developed CI pipelines in GitHub Actions (build test, Docker image publish) standardizing releases
- Automated application deployments across environments using Ansible, streamlining updates

CLOUD & VIRTUALIZATION

- Built hybrid Azure solution (AD, Management Groups, RBAC, VM provisioning, Logic Apps, Blob Storage)
- Configured Azure VM RBAC permissions and Logic App to auto-stop VMs at budget thresholds with alerts
- Managed Proxmox VE and VMware ESXi clusters in home lab to support media and network servers

NETWORKING

- Configured DHCP, VLANs, NAT, and ACLs using Cisco Packet Tracer to simulate enterprise networks
- Implemented VPN/RRAS integration with Active Directory, providing secure remote connectivity

POWERAPPS & AUTOMATION

- Developed volunteer-management PowerApps with an Azure backend, streamlining application data collection and workflow approvals

WORK EXPERIENCE

Tech Support Specialist — Aug 2025 - Present

Tech Support Calgary — Calgary, AB

- Providing technical support and managed IT services to clients both remotely and in person.
- Installing, configuring, maintaining, and troubleshooting hardware and software.
- Managing network, cloud, and security configurations.

Sales Associate & Trainer — Jul 2022 - Present

Kimmer Country Market — Langdon, AB

- Provided technical support for POS and fuel-terminal systems, reducing downtime by 5%
- Developed and taught staff on POS operations, streamlining troubleshooting workflows
- Assisted customers with fuel pump terminal and dispenser errors, ensuring seamless transactions

CERTIFICATIONS

- Palo Alto Cybersecurity Fundamentals/Network Security Fundamental/Security Operations Fundamentals
- ServiceNow Certified: Welcome to ServiceNow
- In progress: CCNA/CompTIA Security +
